INTRODUCTION

The Australian Bureau of Statistics is the official statistical organisation for the Federal and State Governments. Its main function is to collect statistical information from a wide variety of social and economic areas and to compile statistics and disseminate them to interested users both within the Government and the community in general.

The ABS publishes currently almost 1,900 statistical publications—either monthly, quarterly, half-yearly, annually or irregularly under approximately 700 different titles.

How to Use This Catalogue

This ABS catalogue contains publications released by ABS State offices and the Central Office in Canberra. The catalogue is divided into two parts—A and B.

Part A lists all publications in numerical order except that *within each subject group* the Central Office entries precede the State Office entries (*see* description of numbering system below). Most publications issued by Central Office contain particulars for each State and Territory as components of Australian totals.

Part B contains a detailed subject index of all publications in alphabetical order. If you are interested in a particular subject area, e.g. overseas trade, employment, etc. you will find it convenient to identify the range of publications from the list of subject groupings on pages 3-5 and therefore to all publications within that subject. If you have a specific interest, e.g. the production of butter and cheese, industrial disputes, etc. check the detailed subject index beginning on page 125.

Coverage

This ABS catalogue contains currently available statistical publications released by ABS State Offices and the Central Office in Canberra. It includes particulars of new ABS publications issued to 31 May 1979.

In general, publications which contain information from 1970-71 and/or 1971 and onwards are listed in the catalogue. However, in certain cases (for example where they form an integral part of a current series) publications containing earlier information are also included.

The ABS Catalogue Numbering System

The system consists of a five digit code (e.g. 5413.0).

The *first two digits* define the subject by nine broad areas (e.g. 5 represents National accounts, balance of payments and foreign investment, overseas trade, public finance, private finance) divided into nine more precise sub-divisions (e.g. 54 is overseas trade).

The *third and fourth digits* are the permanent serial numbers allocated to publications within categories formed by the first two digits. An allotted number will remain unchanged provided the contents of a publication remain essentially the same.

The *fifth digit*, after the full stop, relates to the office of ABS which issues the publication.

The codes for each issuing office are:

- 0 Central Office (Canberra)
- 1 New South Wales
- 2 Victoria
- 3 Queensland
- 4 South Australia
- 5 Western Australia
- 6 Tasmania
- 7 Northern Territory

Within each subject group, all Central Office entries precede the State office entries.

How To Order Publications

In cases where a considerable volume of information has to be specially extracted or where a regular statistical service is required, a charge may be made.

PART B—SUBJECT INDEX

This index is designed to assist users in determining which Central and State Office publications are relevant to various subjects. *The index is not intended as a comprehensive index of commodities or items covered in the statistics. For example, particular items of production and overseas trade are largely omitted.*

The publication *Manufacturing Commodities, Principal Articles Produced* (8303.0) contains a detailed alphabetical index of commodities produced in Australia.

Detailed export and import statistics are shown in the following publications: *Australian Exports, Country by Commodity* (5411.0), *Imports Cleared for Home Consumption* (5412.0, 5413.0), *Australian Imports, Country by Commodity* (5414.0) and *Overseas Trade* (5409.0).

No references are given in this index for the Year Books (1301.0–1301.6) or Pocket Year Books (1302.0–1302.6) as each of these publications contains a detailed index. The Year Book should be regarded as the principal general statistical reference work produced by the Central Office of ABS. No references are given to the Northern Territory and Australian Capital Territory statistical summaries (1306.7 and 1307.0 respectively), which contain a comprehensive range of statistics for these territories, or to the brochures *Australia at a Glance* (1309.0) and *Australian Farming in Brief* (7106.0), which give brief statistical summaries for Australia.
